International Napoleonic Society
Fifteenth International Napoleonic Congress
*Napoleon in Germany*

10 – 14 July 2017
Penta Hotel
Trier, Germany
Dear Participants of the Fifteenth International Napoleonic Congress,

The International Napoleonic Society promotes the study of the Napoleonic Era in accordance with proper academic standards. To this end, the INS honors the leading minds in this field by making them Fellows of the INS (FINS), and brings them together to present their research and discuss the research of others. The INS is a nonprofit educational body, organized under the authority of the Government of Canada.

The Napoleonic Epoch is one of the most fascinating – and important – in history. Ben Weider recognized this, and founded the International Napoleonic Society to promote greater and more accurate understanding of Napoleon and his times. To this end, we hold International Napoleonic Congresses that bring together scholars from around the world. Previously we have held our Congresses in 12 different nations in Europe, Asia, the Middle East and North America. We welcome you to this Congress and hope you will gain additional insight in to the Napoleon Epoch as well as renew old friendships and gain new ones. And, I want to take this opportunity to thank my dear friend Bill Chew, A.K.A the singing professor, for his invaluable help in organizing this Congress!

J. David Markham, President
International Napoleonic Society
Knight, Order of the French Academic Palms
